

Jayce Rudig-Leathers

Poughkeepsie, New York

Email: jarudigleathers@vassar.edu

Education:

Vassar College

BS in Computer Science with Studio Art Correlate

Aug 2012 - Expected May 2016

GPA 3.4 Accumulative 3.8 Within Major

Aquincum Institute of Technology

Fall 2014 semester abroad

Budapest, Hungary

Currently enrolled

Courses Completed by Summer 2015

- AIT: Computer Graphics
- AIT: Mobile Software Development (Android)
- AIT: Data Mining
- AIT: User Interface Design
- CS 377: Parallel Programming
- CS 241: Analysis of Algorithms
- CS 240: Language Theory and Computation
- CS 203: Software Design and Implementation
- Art 212: Photography
- Art 207: Drawing II
- Art 108: Color Theory

Experience:

The Red Caboose Restaurant and Hotel

June 2014 - August 2014

Cook

I worked as a line cook with no previous cooking experience. I was able to quickly learn a new skill set and adapt to a high stress work environment. Even when joining a pre-existing team, I was quickly able to contribute equally.

Vassar College Computer Science Department

Aug 2013 - May 2014

Lab Coach

As a lab coach I helped run lab sessions for introductory computer science classes (101, 102) as well as holding office hours each week to assist students with classwork. This position requires being highly proficient in the subject matter of each class to insure an ability to mentor students.

Vassar College Department of Residential Life

April 2013 - May 2014

Student Fellow

As a student fellow, I served as a student leader charged with mentoring a group of students through their first year. I am trained in personal relations and crisis management including certification in QPR suicide prevention techniques.

Children's Media Project

Sep 2013 - Dec 2013

Technology and Communications Intern

As an intern with the Children's Media Project, I assisted with community outreach and promotion as well as doing maintenance and setup for their new WordPress based website. I also learned about the day-to-day operations of a non-profit organization.

Vassar College Computer Information Services

Sep 2012 - May 2013

Tech Support

I provided technological support to students and faculty including troubleshooting of hardware, software, and network problems, as well as setup and installation of machines.
